**CPS Country Air- Lucerne Branch
6044 E. Highway 20, Lucerne, CA 95458**

Country Air Properties began their relationship with Telisys in 1999 when they purchased an ESI IXV system for their Lakeport office. Since that time they have grown to 7 offices, all linked together via high speed IP VPN. While this connection allows for easy call transfer among offices, its most important attribute is that it allows for remote site call coverage when all agents are away from any office.

**7 Offices
Completed
2005 - 2006**
