\$10k–\$25k**

**Completed
November, 2008**

About us (Website)

In today's real estate market, it's important to work with a company you can trust. It's essential to find a real estate firm that employs professionals you can rely on. Whether you're buying or selling your primary residence, second home or investment property, or relocating to a new neighborhood in Sonoma and Mendocino counties, the Prudential California team of Domaine has the tools you need to help make your homeownership dreams come true.

**7775 Healdsburg Ave.,
Sebastopol, CA 95472**

Are you searching for a charming Victorian in Petaluma ? Perhaps an elegant ranch-style home in Santa Rosa would fit the bill? Would a quaint cottage or upscale mansion in Sonoma Valley wine country suit your discriminating tastes? Or would you prefer the unique architecture and small-town feel of Sebastopol ? Wherever your interest lies, our helpful and dedicated team will scour the region for the best properties that suit your taste, needs and budget.

When Domaine first opened their Sebastopol office, they started off with a used phone system that they had purchased from Willowcreek Financial, a long time Telisys customer that had recently switched over to an ESI CS100. After about 1 year, although the used phone system was working fine, the staff at Domaine determined that they, too, wanted advanced messaging and notification features and also switched over to an ESI CS100.
